

# MILAN

## TRANSLOADING SERVICES

With the increase in imported and exported containers, the need to transfer products from containers to other transportation modes continues to rise. Transloading services by MILAN accommodates import/export containers from the Port of Memphis area.

MILAN provides transloading services to customers who require quick and efficient unloading of products, sorting, palletizing, storing and reloading. Loading and Shipping your products requires experience to ensure your products are delivered, accurate and damaged-free. MILAN has that experience and expertise.

### **MILAN can positively impact your supply chain:**

- Reduction of ocean freight costs by turning the container quickly without storage costs;
- Reduction of domestic freight charges by moving freight into over-the-road trucks in legal weight loads;
- Inspection of cargo for damage and quality issues before delivery to customer; and
- Optimizing mode flexibility creates an agile, flexible supply chain with on-time deliveries that keep your customers satisfied.

### **Port-to-Door Movements with business ease.**

Should additional services be required like photographing product, repackaging and labeling, MILAN's experienced team is ready to keep your products moving in your supply chain. All compliance and regulatory requirements can be handled by MILAN making this entire process easy on your team.
